METADATA CATALOGUE FOR ITS DATA & SERVICES

PROVIDE  
METADATA

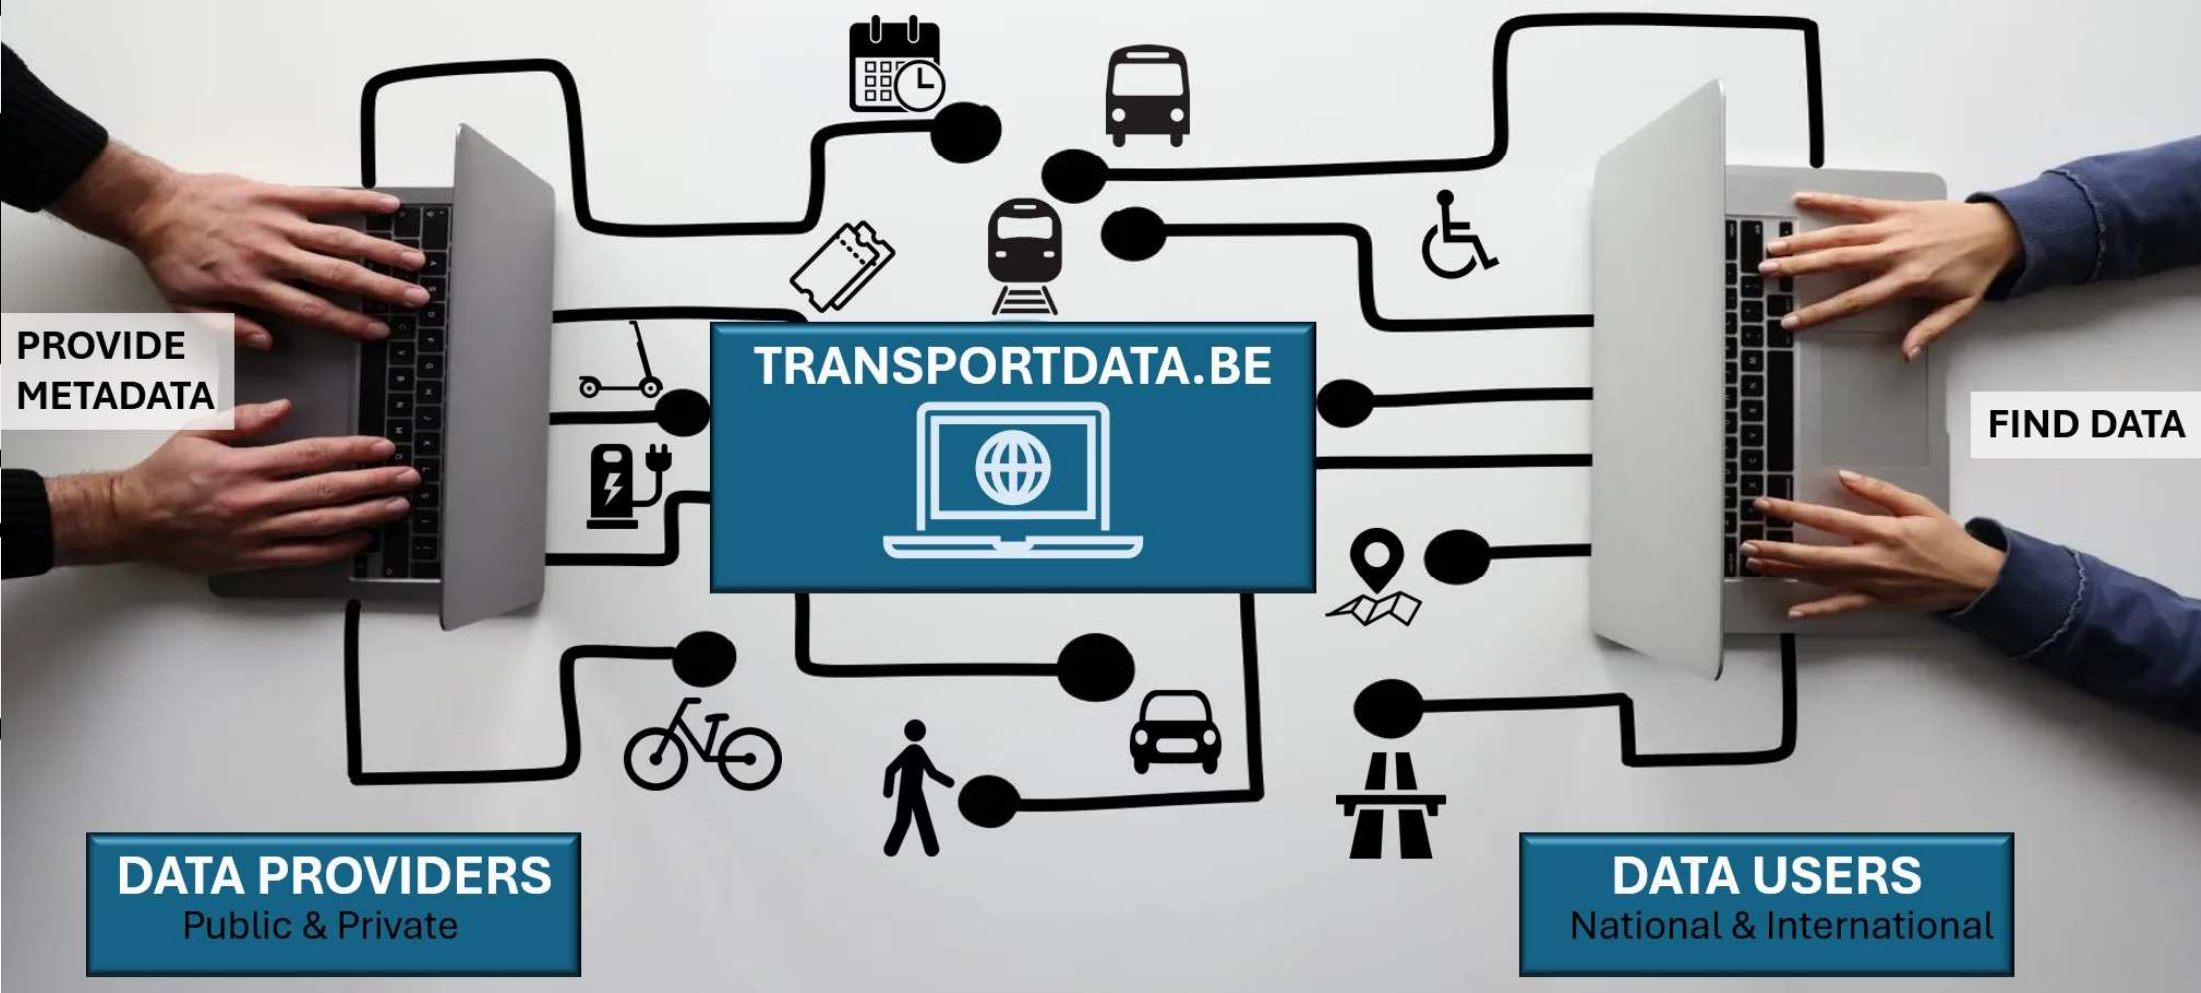

FIND DATA

**TRANSPORTDATA.BE**

**DATA PROVIDERS**  
Public & Private

**DATA USERS**  
National & International

- (x) accessibility of access nodes, and paths within an interchange (such as existence of lifts, escalators);
- (xi) existence of assistance services (such as existence of on-site assistance);
- (e) trip plan computation:
  - (i) road network (including segregated lanes for bus/taxi);
  - (ii) cycle network (cycle tracks, cycle lanes, bus-and-cycle lanes, on-road shared with vehicles, on-path shared with pedestrians);
  - (iii) pedestrian network and accessibility facilities.

## 1.2. Level of service 2

- (a) location search – for transport on demand and personal transport:
  - (i) location of parking places (on and off-street), including accessible parking places for persons with disabilities and persons with reduced mobility;
  - (ii) Park & Ride stops;
  - (iii) Park & Drive stops;
  - (iv) bike-sharing stations;
  - (v) car-sharing stations;
  - (vi) secure bike parking (such as locked bike garage);
  - (vii) scooter parking zones;
- (b) information service:
  - (i) where and how to buy tickets for scheduled transport, including retail channels, fulfilment methods, payment methods;
  - (ii) where and how to pay for parking, including retail channels, fulfilment methods, payment methods;
- (c) auxiliary information – for scheduled transport and transport on demand where relevant:
  - (i) basic common standard fares:
    - fare network data (fare zones/stops and fare stages),

## MMTIS data categories

1. Static, historic and observed travel and traffic data
  - Locations (addresses, POI's, access nodes, stops & stations...)
  - Trip plans (timetables, network, accessibility, vehicles... )
  - Information service (where and how to buy/book tickets ...)
  - Fare query (fare structure, passenger classes, commercial conditions...)
  - (historic) data on delays and cancellations
2. Dynamic travel and traffic data
  - Disruptions and diversions, real-time status information
  - Occupancy information
  - Availability check

## MMTIS data categories

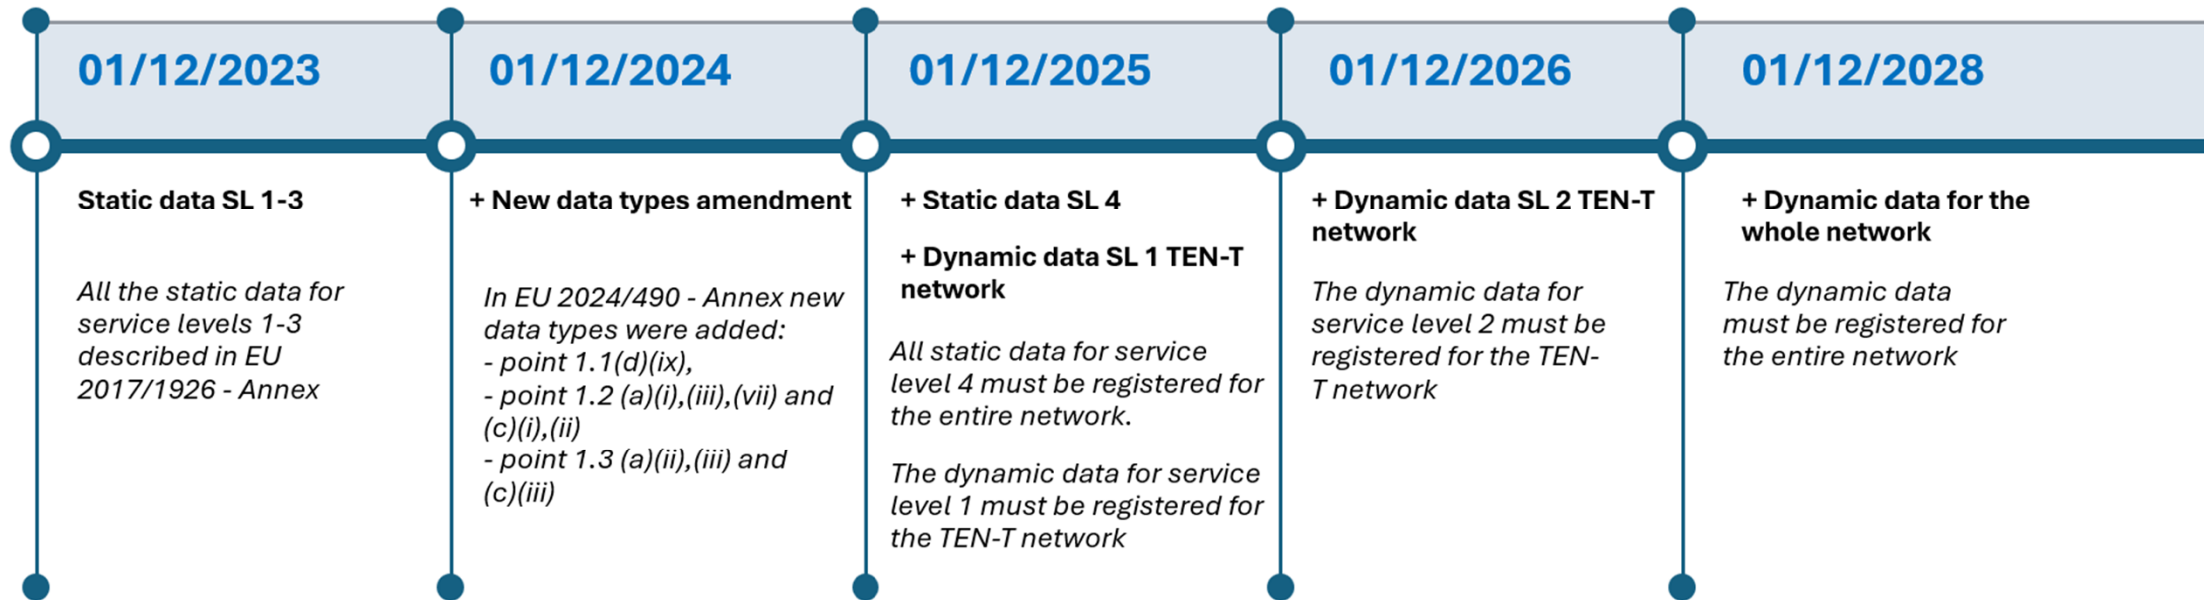

Only data that is already available in a machine readable format

Whom?

- Transport authorities
- Transport operators
- Transport on demand service providers
- Infrastructure managers

## Timeline MMTIS data

## Sharing, exchange and re-use of data

Common (open) mobility standards:

- Traffic information & data: DATEX II
- Multimodal data: Transmodel, NeTEx, SIRI
- Location data: INSPIRE
- Metadata: MobilityDCAT-AP

The logo for DATEX II, featuring the text "DATEX II" in a bold, blue, sans-serif font. The "X" is stylized with a diagonal slash.The logo for Transmodel, consisting of a blue square with a white stylized figure inside, and the word "Transmodel" in blue text below it.The logo for NeTEx, with "NeTEx" in white text on a blue background, and "Network Timetable Exchange" in green text below it.The logo for SIRI, featuring the word "SIRI" in a large, bold, blue, sans-serif font.

## Sharing, exchange and re-use of data

### Sharing:

Updated data

- Through the NAPs
- On a non-discriminatory basis

### Terms of access and (re-)use:

- Charges for access, exchange and re-use shall be reasonable
- APIs shall be publicly accessible allowing users and end-users to register to obtain access
- Terms and conditions are described in a license agreement and must not unnecessarily restrict **LK1** use

Data providers & users shall collaborate to correct any inaccuracies

## Dia 8

---

**LK0**

Leave this out? (not sure why it is here...)

Any financial compensation shall be reasonable and proportionate to the legitimate costs resulting from providing and disseminating the relevant travel and traffic data

Laura Kupers; 2024-09-05T07:35:12.029

**LK1**

Described in a license agreement

Laura Kupers; 2024-09-05T07:36:00.917

## Sharing, exchange and re-use of data

### Re-use of the data:

- Source of data must be indicated
- The data shall be reused in a neutral manner (ranking of travel options transparent)
- Upon request, travel information service providers shall provide to another information service provider routing results
  - Terms and conditions for re-use shall be defined in contractual agreements
  - Any financial compensations shall be reasonable and proportionate to the legitimate costs resulting from providing and disseminating the relevant travel and traffic data

**I think this is RTTI**

Laura Kupers; 2024-09-05T07:48:10.287

## Control Body – metadata check

National Control Body:

1. An independent organisation
2. Annual assessment of compliance with the delegated regulations

Assessment:

- Stakeholders (*all*):
  1. Organisation registered on NAP
  2. Declaration of compliance submitted
  3. Datasets provided on NAP
- Datasets registered (*random sample*): metadata conformity

Positive assessment

**TEC GTFS** *TEC* ✓ METADATA CHECKED & VERIFIED  
Contains static TEC data (stops, routes, shapes, stop times, trip, calendar).  
**Protocol buffers**

---

**TEC NeTEx** *TEC* ✓ METADATA CHECKED & VERIFIED  
Scheduled timetable in NeTEx format  
**XML**

---

**TEC Special Fare Products** *TEC*  
Contains information concerning TEC special fares (youth groups, military, etc.).  
**Other**

---

**TEC Passenger classes** *TEC*  
Passenger classes (classes of user such as child, student, BIM, military...): <https://www.letec.be/View/Benefits/256>  
**Other**

 *Not possible for data owners to apply for the label themselves*

## Transportdata.be : where are we now?

+ 170 datasets

+ 90 organizations

+ 5.9K total users 2023

And still growing

Active NAPCORE partner

4 NAP Operators

## How to use transportdata.be?

Everyone can search through the data catalogue, no login required

Use keywords or filters to find the data of interest. Automated access by CKAN-API is possible

Use the contact details of the organization (in metadata) if necessary to get access to the data

In the “about” section you find lots of information & the FAQ

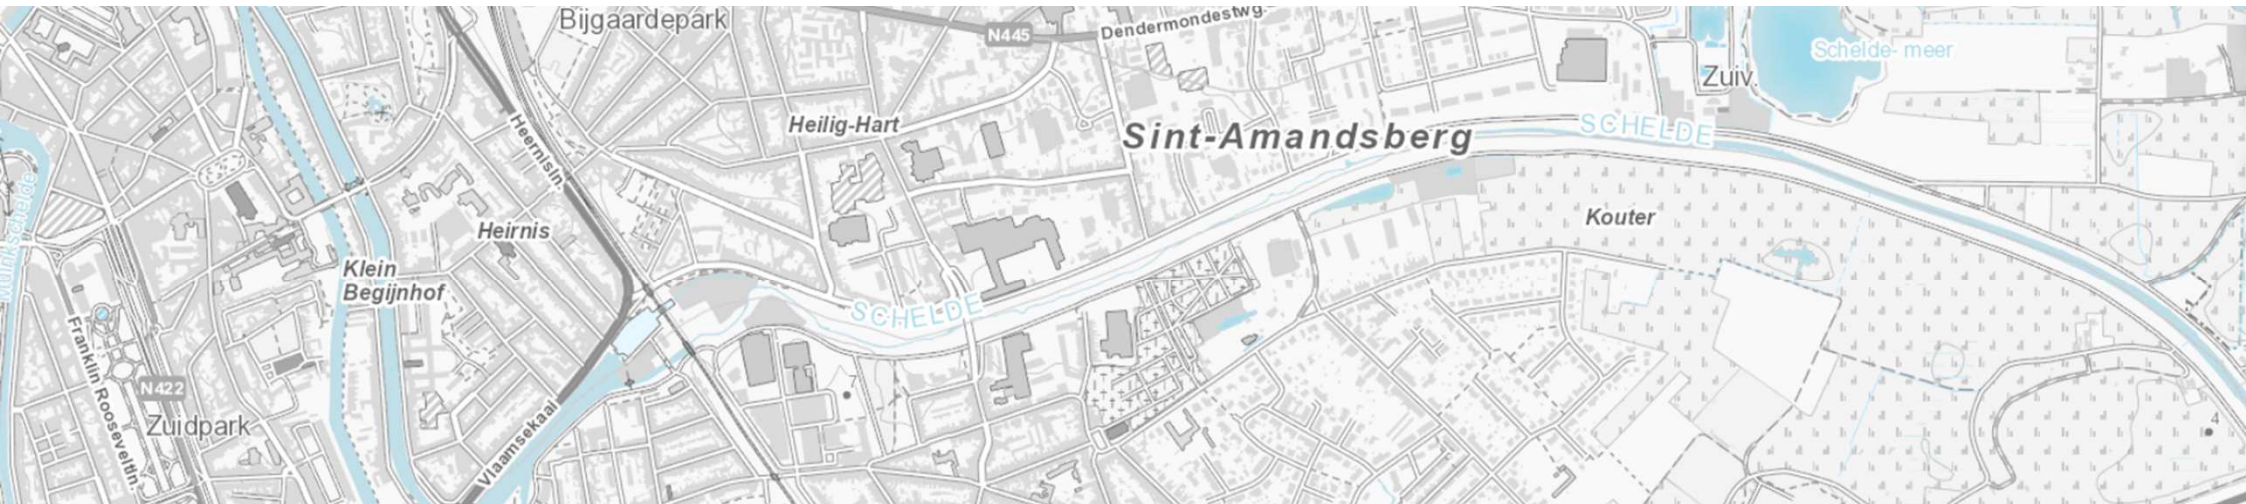

If logged in, you can follow organizations or datasets of interest and stay updated

For re-use consult the license terms of the specific dataset
